

National Planning Framework 4: Feedback Form

Event: Transforming Planning for Communities

Venue: Longhaven Hall

Date: 26/02/2020

Number attending: This group had 8 people

Summarise up to THREE key themes which came out from the discussions:-

1. CARBON (BLUE)

vehicles – infrastructure is needed to support both electric and hydrogen

Siting of renewables – impact onshore and offshore should be considered.

Tree planting – mitigating impact especially around flooding.

2. PEOPLE (YELLOW)

Town Centre Development that encompasses needs for good/better education, services, active transport (walking and cycling)

Change the Developer Obligations System – less restrictive and more flexible.

3. WORK (RED)

Transportation – supports trading and added value to local produce.

Digital Connectivity – so people can do jobs from home or anywhere else.

Energetica extending To Fraserburgh to support local trading.

4. PLACE (GREEN)

Challenge of attracting people who come to work to stay

5. DELIVERY (GREY)

Feedback: do you want to add any other comments?
