

NPF4 CALL FOR IDEAS – BREADALBANE ACADEMY

This overview provides a summary of ideas and mapping generated at the event held at **Breadalbane Academy in Aberfeldy** on 13 March 2020 where Members of the Junior and Senior school councils contributed ideas as part of a workshop session. (Photo credit: Breadalbane Academy)

MAJOR THEMES IN RELATION TO THE SIX DISCUSSION QUESTIONS:

What development will we need to address climate change?

- Save the planet and address climate change
- Use renewables
- Protect nature
- Less waste and stop using plastic

How can planning best support our quality of life, health and wellbeing in the future?

- Less pollution and be more environmentally friendly
- Less junk food and less waste
- More (young) people live in rural areas
- Public health
- Tackle poverty and ensure a more equal, inclusive and accepting society
- No homelessness - housing for all

What does planning need to do to enable an economy that benefits everyone?

- Everyone with well paid jobs – fair and equal pay
- Home and rural working
- Good international working relationships
- People valued for what they do
- Less carbon in travel or delivery

How can planning improve, protect and strengthen our places?

- More trees and 'green' environmental improvements
- Less litter, less plastic, more recycling
- Stop pollution
- Better wifi
- Protect wildlife and nature

What infrastructure do we need to plan and build to realise our long term aspirations?

- Electric vehicles
- Better public transport (and in rural areas)
- Good quality accommodation
- Digital connectivity

'ONE BIG THING'

- No more global warming
- A socially just and equal society
- Stop plastic, stop pollution
- Protect wildlife
- Renewable energy
- Better public transport
- Support rural communities

The following pages provide a record of the ideas and maps that were produced

'CLIMATE CHANGE' - What development will we need to address climate change?			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
For climate change to stop!	For the next generation to see animals that are endangered now		Save the planet and address climate change
It to stop really but to slow it down. Acid rain.	Who wouldn't.		
No climate change	I don't want to die		
Less factories. Save water. Less plastic. Electric cars	It would save the planet		
A lower level of non-eco sources. A smaller carbon footprint. Less fumes going into the atmosphere.	The world is being destroyed by humans and we need to stop it.	Environment department. Scottish Government	
People need to stop using diesel and stop climate change.	Because it would do a lot and help Greta Thumberg		Use renewables
Stop using fossil fuels. Use renewables. Stop using as much plastic. Ride horses more.	To stop pollution. To stop littering. To stop petrol and diesel polluting.		
Everything being powered by renewable energy	Then we wouldn't have as big a risk of climate change happening again		
A Scotland that is run by sustainable energy	It would mean we are not creating fossil fuels to heat up the world and kill us all	Environment secretary and just government	
More windmills.	More windmills to generate electricity and other stuff.		
Houses have solar panels	To save the planet	All people	
Every house in Scotland will have solar panels!	Electricity is one of the main causes of global warming!		
More electric cars, buses and houses	It will help climate and better for planet		
A new type of fuel.	To stop climate change and green house gases.		
Seeing less animals get extinct	Then it gives younger people the opportunity of seeing load of animals		
Animals that are endangered are no longer under threat. More green energy. More trees around towns and city for cleaner oxygen	It would help the earth and other creatures including us	The Government, teenagers	
Everything running smoothly and less animals going extinct	Our world is dying and we must act now	People of 2020	
More protected nature reserves	It helps stop climate change and affects peoples mental health	Rich people and government	
For plastic to stop being produced, and put the remaining plastic to use: like stop flooding. Stop the mass production of plastic	Because otherwise the world will be doomed.	everyone	Less waste and stop using plastic
Use less plastic	Use less plastic to help pollution		
Less land waste And more recycling	It's better for the planet and the animals		
Reduce waste	to stop pollution		

'PEOPLE' - How can planning best support our quality of life, health and wellbeing in the future?			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
We will want to live in a non polluted world. We could live in wooden houses to keep us warm and have solar panels on the top.	Then we could live life non free of pollution. So we don't need heating or fires.		Less pollution and be more environmentally friendly
Environmentally friendly entertainment.	It is entertaining and friendly to the earth.	General population of people	
Less junk food.			Less junk food and waste
Less food waste!	There is too much food waste in schools, homes, restaurants.	Everyone who eats	
More young family and young people move to rural areas and glens in Scotland	The main places young people live in cities and all the old people are making communities die down.	The government that works with housing	More (young) people live in rural areas
More people living in rural areas	There isn't enough young people to support the community		
More research on illnesses and medicines, cures and vaccines.	It would help grow the population of people who can help.	scientists	Public health
Everyone has to be vaccinated by law	They are bringing back illnesses we have already killed and are potentially giving their children fatal diseases if they are not vaccinated	Anti vaccines and government	
Better health care. Less homelessness and poverty. More shelters for people who are on the street. Clean water, clean clothes	People should not have to live in a dirty unhygienic environment, they should have the same rights as everyone else.	Environment Dept. Scottish Government	
Equal society in which no one is discriminated no matter who they are	Everyone is equal and they don't deserve to be discriminated against because of how they look	everyone	
No poverty	More and more people are having problem with poverty	everyone	
No poverty	Poverty is bad		Tackle poverty and ensure a more equal, inclusive and accepting society
Liveable rent prices for minimum wage workers or student debt people and higher food standards	Because we need people at the bottom to be able to work	Employers and government	
Our society being fully accepting (sp?)	Then if everyone was accepted people might have less mental health problems		
People to be more accepting / civil	People don't think before they speak		
People should be more pleasant with each other!	Organise groups to sort out situations (if there big or small)		
So we can change and help the people we need to help now or never	Free med for everyone not just for kids		

Tell the cranky landlords out because they don't help build up communities			
More family homes for larger families	It is hard to find nice houses		No homelessness - housing for all
More country houses rather than being in a city	It's nice to see the country when you look out your window		
No homeless people. Everyone has a home no matter there (sp), race, gender, sexuality, ethnicity or religion	Everyone should be equal and deserves a home	government	

'WORK' - What does planning need to do to enable an economy that benefits everyone?			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
Higher minimum wage so people can live in modern houses and lifestyles	Well if I can't earn enough to live and that's bad	The Government and employers	Everyone with well paid jobs – fair and equal pay
The Government giving more support to people with less money and people who are in debt.	It's hard to live well with less money. Single parents need support while bringing up a child / children.	The Scottish Government	
Everyone has a job	Because jobs good		
Fair pay checks	Not all genders are being treated equally. And we need to stop it.	The Scottish Government	
Work and offices pay men and women equal	Gender discrimination is bad		
Make maternity leave longer and make paternity leave the same	We want to be equal		
Jobs around more rural places	It is hard for people to get there without long travel	companies	
I think many people should work from home so they stay close to their family.	Many people travel to work causing pollution. Also because of Brexit I want it to be easy trade.	Government	
A Scotland that is part of the EU as it gives us benefits that we can't get from anyone else	Being part of the EU provides us with all kinds of protection and trade deals along with laws and food standards that makes our food safe to eat	Government and the people who will vote	Good international working relationships
For Brexit to stop	Brexit is such a big waste of time	Government	
More trading with the EU and Asia even though we leave the EU			
Teachers to get paid more	They teach children so they can get jobs when they're older		People valued for what they do
Emergency services should be paid more!	They are very underestimated!		
Emergency services should be paid way more.	They save so much lives		
Drones for delivering packages	The postman – woman's cars are bad for the planet		Less carbon in travel or delivery

'PLACE' - How can planning improve, protect and strengthen the special character of our places?			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
More trees in towns	It will help climate and scenery		More trees and 'green' environmental improvements
Put more trees in the city and in the parks			
Having lots of trees.	So we can breathe.		
Environmentally			
More greenery in town and cities	The town and city need greenery		
A higher concentration of trees and flowers in cities	It cleans the air and makes it look pretty especially in a dull city	government	
More greenery in towns and cities	In cities and towns there is very little greenery and it is effecting our health	The Scottish Government	
Stop cutting down trees. Community tree planting in derelict fields.	We need cleaner air		
Trees being more common in big cities (or just green in general)	Then cities would be nicer to live in and look at		
Primary schools have habitat gardens to give them a place to like			
Litter being sorted and decomposed. Litter being sorted by colour and thing	In Sweden?		Less litter, less plastic, more recycling
Coastal plastic waste being solved – birds choking on micro plastics	There are too many dead birds and other animals with their habitat destroyed	Everyone!!	
For people to stop using single use plastic in public / everywhere	We need a cleaner, brighter future	everyone	
Streets that are clean and litter free also seas that are free of plastics of all kinds including micro plastics	It ruins the environment and kills sea life	Government and everyone who doesn't put their rubbish in the bin	
Better recycling in public areas. Doing something about landfill. Less plastic use in places. Making poverty use less common.	We need a brighter, cleaner future	Environment Department. Scottish Government	
Put a price on littering so there is less litter	It would clean cities and towns		
Less cars more trains, buses, horses.	Stop pollution		
Stop using fossil fuels.			Stop pollution
Try to make better things happen in Glenlyon			
Quick wifi in rural areas	Its unfair we miss out. Plus more people could work at home.		Better wifi
More forests and protected land	Nature reserves good for the environment		Protect wildlife and nature
Stop the intensive farming of animals who are treated badly	The animals are kept in confined, unkept spaces for the majority of their life and it's not ok		

Protect wildlife, like bringing back capercaillies and lynx and wild cats.	They don't deserve to die	WWF
A revered place for endangered animals	For the next generation to see them	

'DELIVERY' - What infrastructure do we need to plan and build to realise our long term aspirations?			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
Electric cars / buses. Drones. Less diesel, less petrol. Maybe some new types of transport that does not affect the environment.	Electric cars because its less pollution. Less diesel and less petrol less pollution.		Electric vehicles
We need to have more electric cars, lorries, and we could make hover boards and drones.	It will be better for the environment and everyone all the people		
More electric cars and electric vehicles	Its good for the environment		
More electric cars, buses, trucks, helicopters	It is good for the environment		
All cars are electric	Global warming bad		
Solar powered cars being more common	Then everyone would be able to get around but without emissions		
Better transport in rural areas. There aren't any buses on Sunday morning in Aberfeldy.	Especially on Sundays its hard to visit your friends and family if no buses are running. I wanted to get a bus from Aberfeldy to Birnam at 12:00pm but there were no buses till 7:30pm!	Bus companies. Stagecoach	Better public transport (and in rural areas)
Better transport in rural area	It is hard to go visit friend and family	Bus / stagecoach	
Good transport for everyone public and private. Also better roads.	It is hard to get around if you live in rural areas		
Better transport (more economical vehicles)	Fumes are a big problem for transport. We need less fumes.	The Scottish Government	
Clean buses, friendly drivers come to more places	Our school bus isn't safe and driver isn't friendly		
Clean buses nice bus drivers, good transport, safe roads, buses to more places	The roads are bumpy and it would be better if the bus driver was nice		
Clean buses, easy transport, accessibility for disability	It has been going downhill for the past couple of years	Government	
Have clean buses. No mould. Could have bins in the back of the seats, chargers in all the buses.	So we have better hygiene. So if our phones are dead and our buses break down we can phone people.		
Clean buses, good transport. No buses to Aberfeldy publicly.	This is what I have to deal with now and should be better for other generations.		
Less cramped flats and student housing	At some point people will be student	universities, landlords	
Digital connectivity			Digital connectivity
Good wifi for rural areas	I live in a rural area and the wifi just doesn't work		

'ONE BIG THING'			
WOULD LIKE TO SEE...	BECAUSE...	WHO CAN BEST MAKE THIS HAPPEN...	THEME/S
No more global warming	Global warming is bad	More renewable energy	No more global warming
To stop climate change forever	It will give us a better world		
An equal society where no one is discriminated against no matter	No one deserves to feel isolated because of discrimination or not get their job they want because of their gender or religion	everyone	A socially just and equal society
Just for people to be clean, friendly and just nice		everyone	
Support for single or low paid parents	Our future generation is depending on children being raised properly. Children are not being treated properly. This needs to stop.	The Scottish Government	
A stop to bullying in schools. More support for people who have like anxiety	It would help with young people's education		
To stop plastic production and to put plastic to some use like making energy and clothing for poorer countries. And to stop the plastic ending up in the ocean.	It would improve our environment	everyone	Stop plastic, stop pollution
Pollution to stop, climate changing, important people to make better decisions	So things actually get done		
Stop pollution and use of plastic	It would make the world better		
Stop pollution and save endangered animals	I don't want to live in a polluted place and I want to know that animals are safe as well		
For endangered animals to have a revered place for them to live	So the next generations to be able to see them		
More trees	Trees = green = grass = good = cow food = cheeseburgers	Government	Protect wildlife
Stop animal extinction	Because we need this to stop		
Solar power / renewable energy to power everything			Renewable energy
Scotland being completely renewable energy powered			
Better transport for public and school kids	It's horrible now		Better public transport
Better transport	It is a problem	government	
Build up the rural communities like Glenlyon. Offer more for the young.	There is not much to offer	Government	Support rural communities
